ALL PERSONS HAVING CLAIMS against Robert William Holt personally are requested to present the same without delay at the Office of BRUCE & A. J. CARTWRIGHT, Honolulu, Aug. 22, 1893. 813-4f.

(Continued from 1st Page.)

roy of India in Cashmere valley. In the summer of 1891 he traveled from Cashmere through Chang-La pass, in the Himalayas, northward through Tibet, over the Switzing plateau and Tolarash. Ramsay, the British commissioner, traveled between these points, but skirted the plateau on the westward. No one ever crossed it before.

A caravan attempted it thirty years ago with seventy horses and a hundred men, but never returned. He rushed through with thirty horses and seven men in seven days. He stayed in Siberia till January last, when he went to Japan. Gulitzin will read a paper before the Geographical Society in New York.

TWO GREAT MEN GLORIFIED. Among the notable gatherings in connection with the Catholic congress in Chicago on a recent day was the meeting of the Young Men's National Union, at which Archbishop Ryan of Philadelphia made an address which attracted much attention.

He held up as a model the public man who always had the courage to do his duty in the face of opposition, misunderstanding and calumny—William E. Gladstone. The name called forth loud cheers.

As an example of the man who always felt his responsibility to God and the public he could not give them a better name than that of Grover Cleveland, a name that was loudly cheered. The Archbishop said that Mr. Cleveland represented the people of the United States.

BRAZIL CINCHES THE CABLE.

From London on the 7th inst. it was announced that the Brazilian Government has stopped all general communication with Europe.

The same day at New York cable communication with Brazil was resumed for a few hours, when it was again suspended by order of the Brazilian Government.

In reply to a request from the Coffee Exchange, Secretary Gresham telegraphs that there is no specific discrimination against American citizens in Brazil, and that an independent protest against the suspension of the cable service would be of doubtful utility. Gresham says, if it is desired, he will instruct Minister Thompson to concur in a general diplomatic protest.

IRISH INDEPENDENCE DEMANDED.

M. B. Gannon of Omaha, Neb., president of the Irish National League, J. P. Sutton of Lincoln, Neb., secretary, and William Lyman of New York, treasurer, have issued a manifesto to the Irish people in America, denouncing Gladstone's home rule bill, and giving the reasons why it can never become a law.

They say: "It appears to us that the time has come when the Irish race, the world over, should be enlisted in one gigantic movement for the liberation of Ireland. It has the power to strike the chains from the land, if it has only the will. A great convention of Irishmen from all countries, we think, should be called, and a plan for united action formulated and adopted. At such convention the example of the American patriots might be emulated, and a declaration of Ireland's independence given to the world."

NEW CURE FOR CONSUMPTION.

A London despatch says: Among the subjects scheduled for consideration at the International Medical Congress, called to assemble in Rome next month, but the postponement of which to next April has just been announced, was the cure for consumption discovered by Dr. Amick of the United States and which is attracting great attention in England and continental countries.

A leading medical journal says that as a result of the postponement of the congress a party of prominent physicians of England, France and Germany will leave for the United States the last week in September, and after a brief visit to the World's Fair will proceed to Cincinnati to personally interview the discoverer. At a meeting of the Paris Clinic of Physicians last week one of the speakers coupled Amick's name with Pasteur's as benefactor of the human race and paid a high tribute to the medical profession in the United States.

VETERAN GRIZZLY BEAR KILLED.

A Fresno, Cal., despatch of Sept. 11 says: At Bald rock, sixty miles from Fresno, last Friday, John Rose killed a grizzly bear, which has been roaming about that region for nearly fifteen years and was called "Bigfoot" by miners in that vicinity. It is estimated that he has killed 1000 sheep in his time and has had many fights with Chinese sheepherders. He carried scars to show it, for when he was cut open seven bullets were found in his carcass. They had been fired into him in past years. He was killed in a canyon and could not be got out, but those who saw him estimated his weight at 2000 pounds. His hide was a good load for two men to carry out.

CHOLERA GERMS.

A New York despatch is as follows: The obtaining of bacteriological proof of Asiatic cholera has been much facilitated lately by the Dunham process, introduced by Professor Koch, of breeding the comma bacillus in a solution of alkali and peptone. This process permits proof of the presence of cholera bacillus in as brief a period as six hours, occasionally, and in all cases within twenty-four hours. The presence of the comma bacillus has been detected in persons with no symptoms of cholera, and seemingly in perfect health.

These new discoveries prove that the bacillus may be present in the system in a non-poisonous state. So far nobody has discovered what produces the virus. The old theory is still believed, that the disturbed functions of the stomach or intestines will develop cholera if the bacillus is in the system.

An announcement that Germany will at once strengthen still more the fortifications at Metz, which are already supposed to be impregnable, is regarded as of great significance.
